Muhammad Aqib Javed

Frontend Developer · Bahawalpur, Pakistan

● Available for opportunities

Frontend & WordPress Developer with 2+ years of hands-on experience building responsive websites and WordPress solutions. Skilled in HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS, WordPress and Elementor. Experienced in responsive UI development, website replication, custom WordPress development and website performance optimization.

WORK EXPERIENCE

Frontend Developer

Apr 2026 – Present

SkillWays · Bahawalpur

- Built a custom WordPress site from scratch for an Australian modular home company (PDS) — custom child theme, ACF-powered product catalog, and per-product finish-selection configurator.
- Optimised site performance and Core Web Vitals using WP Rocket caching, image/asset fixes, and Lighthouse-driven fixes across heading structure, alt text, and touch targets.
- Configured Fluent Forms with branded email notifications and FluentSMTP (Microsoft 365 OAuth) for reliable client-facing form delivery.

Web App Intern

Aug 2024 – Apr 2026

FINEWEB · Bahawalpur

- Assisted senior developers in building and maintaining client websites using HTML, CSS, Bootstrap, Tailwind & JavaScript.
- Replicated an existing client website end-to-end (design + build) under senior developer supervision.
- Created responsive landing pages and improved existing designs for mobile compatibility.
- Participated in code reviews and followed team coding standards and version control practices.
